SendTo Shortcut for pushing files to /enterprise/usr via ADB on non-SD660 devices

Installation

1. On the PC , press Win+R to open the Run box and enter shell:sendto to access the SendTo folder

2. Unzip the file contents to the SendTo folder
3. Edit __copy to ent non-660.bat and change the file path to the required path to the SendTo folder on your PC

```
rem !!!! change this file path to match your own PC !!!
adb install -r "C:\Users\MBFK48\AppData\Roaming\Microsoft\Windows\SendTo\tools\adb-filetransfer-wrapper-release-1.0.apk"
```

4. Save the file
5. Select a file or a group of files to transfer to the /enterprise/folder
6. Right click to access the SendTo folder and select the __copy to ent non-660 option
7. Files will be transferred
8. Check that the files are in the /enterprise/usr folder e.g.
   Adb shell ls /enterprise/usr
